IRC Pool Fence & Gate Requirements

1. The barrier must be at least 4 feet high (measured on the exterior side), with the bottom of the fence no more than 2 inches above the ground as measured from the outside.
2. The barrier should not have any openings that allow the passage of a 4-inch-diameter sphere

Gate Requirements

- Any gates or doors must have a lock and comply with the general barrier requirements above.
- Gates used to access the pool must open outward (away from the pool) and be self-closing and self-latching. Other gates (such as service entrances) should be self-latching.
- If the latch release is less than 4.5 feet above the bottom of the gate, it must be located at least 3 inches below the top of the gate on the pool side, while the gate and barrier within 18 inches of the latch release should not have any openings larger than ½ inch.
